SUMMARY

ICT & Software student at Fontys University of Applied Sciences, currently also studying AI, Machine Learning and Data. I build full-stack web applications with Java Spring Boot or C#/.NET on the backend and React on the frontend, and I've worked on projects for real clients like BAS World, Driessen and CGI. I'm looking for an internship where I can keep learning in a professional development team.

TECHNICAL SKILLS

Languages	Java, C#, TypeScript, JavaScript, SQL, HTML/CSS
Frameworks	Spring Boot, Spring Security, ASP.NET Core MVC, Entity Framework, React
Databases	PostgreSQL, SQL Server, Flyway
Tools & testing	Git, GitLab CI/CD, Docker, SonarQube, JUnit, Vitest, Cypress, MSTest

PROJECTS

Triply – Group Trip Planner | Individual project

Mar 2026 – Jun 2026

Java 21, Spring Boot, React, TypeScript, PostgreSQL, WebSockets, Docker, GitLab CI

- Web app where friend groups share their availability and vote on trip dates
- Built it end to end: a date-suggestion algorithm, real-time chat and voting over WebSockets, and CI/CD with automated tests

Driessen Desk Booking System | Group project for Driessen

Mar 2026 – Jun 2026

Java, Spring Boot, Spring Security, React, PostgreSQL, Flyway, Docker

- Desk and room booking platform with reservations, team schedules and leave requests
- Built the login and team management, automatic booking confirmation emails, and fixed the database migrations

BAS World Sales Dashboard | Group project for BAS World

Sep 2025 – Jan 2026

Java 17, Spring Boot, React, TypeScript, PostgreSQL, Recharts

- Sales analytics dashboard for an international commercial vehicle trader
- Owned the Products module: backend endpoints for KPIs and revenue trends, plus the page with filters and charts

RedBell – Restaurant Ordering System | Individual project

Oct 2025 – Dec 2025

Java 17, Spring Boot, React, TypeScript, PostgreSQL, WebSockets, Docker

- Three connected apps: a customer menu, a kitchen display and a waiter app
- Real-time orders over WebSockets, table management and PDF bills

NERA – Event Management Platform | Group project for CGI

Mar 2025 – Jun 2025

C#, ASP.NET Core MVC (.NET 8), Entity Framework, SQL Server, SignalR

- Event platform with registration, Stripe payments, QR-code tickets and live comments
- Built event creation with photo uploads and participant limits, and wrote unit tests for 12 services

PROJECTS (continued)

The Popcorn Vault – Movie & Series Platform | Individual project

Apr 2025 – Jun 2025

C#, ASP.NET Core MVC (.NET 8), SQL Server, MSTest, Moq

- Platform to browse, rate and review movies and series, with favorites and an admin panel
- Layered architecture covered by unit tests

EXPERIENCE

Event Committee Leader | Proxy

Sep 2026 – Present

- Lead the event committee and oversee every event we organize, from planning to the day itself
- Act as the link between our members and the board
- Run the stand-up meetings for all the teams

Waitress (part-time) | Smaeck Vermaeck Ketelhuis B.V.

Oct 2025 – Present

- Work part-time alongside my studies in a busy restaurant
- Handle several tables during rush hours, which taught me to stay calm under pressure and set priorities quickly
- Communicate clearly with guests and colleagues in a fast-paced team

EDUCATION

Fontys University of Applied Sciences

Sep 2024 – Present

Bachelor of ICT – Software · Eindhoven

“Prof. Ivan Apostolov” Private Language School

Sep 2019 – Jun 2024

Secondary school, Hardware and Software Studies program · Sofia, Bulgaria

LANGUAGES

Bulgarian	Native
English	C1 – IELTS Academic, overall band 7 (October 2023)
German	A1 (currently learning)

COURSES

Digital Sciences – Telerik School Academy	Jun 2023
Intellectual Property Masterclass – European Union Intellectual Property Office	Dec 2022

SOFT SKILLS

Communication · Teamwork · Problem-solving · Adaptability · Time management · Organization
